

ANNOUNCEMENT & CALL FOR POSTERS

ADOCHS ONLINE STUDY DAY

IMAGE & DATA PROCESSING IN THE CULTURAL HERITAGE SECTOR

14 09 2021 - 9AM > 5PM

Thanks to recent initiatives (e.g. EUROPEANA, IMPACT) from the European Commission, more spotlight has been shed on research and development in the cultural heritage sector where researchers are working together for better digitizing, preserving and processing the materials in Libraries, Archives, Museums and other institutions. The **ADOCHS project**, which is supported by the Belgian Science Policy Office (BELSPO) and was initiated in collaboration between KBR (Royal Library of Belgium), CEGESOMA (Centre for Historical Research and Documentation on War and Contemporary Society)-State Archives in Belgium, ULB (Université Libre de Bruxelles) and VUB (Vrije Universiteit Brussel), has a specific **focus on image and (meta)data processing in the cultural heritage sector**. In November 2019, the ADOCHS team has organized a first study day on Linked Data which turned out to be a successful event for sharing ideas and expertise between different projects as well as the general public. The momentum will be continued this **September 14th 2021** with a second international study day where focus will be put on image and data processing in the cultural heritage sector.

Are you working on image/data processing in cultural heritage? Are you applying artificial intelligence in Libraries, Archives or Museums? Or do you have some interesting ideas on Digital Humanities? **We would like to invite you to join us with poster presentations on your research, your projects or your ideas!**

PRE-SELECTION: Submit your posters (with a length of 1 page) in PDF format by **30th June 2021**

SELECTION: Selected posters will be notified by **31th July 2021**

CONFERENCE DAY: Present your slide(s) and interact with the international audience during our **Poster Session**, on the **14th September 2021**

Do you have questions? Please contact adochs.be@gmail.com
